Solutions

Executive Preface

The Church is facing its greatest challenge in 2,000 years. Pastor Chuck Swindoll calls it “the greatest cancer in the history of the Church.”

Pervasive internet pornography must be dealt with in a totally different way than any other problem or sin issue the “body of Christ” has ever faced. The Church is confronted with the most devastating consequences in its history. My personal greatest question is: “Who will my grandchildren ever marry?”

The Porn Epidemic provides accurate data on size, consequences, problems and workable solutions to this devastating problem.
